## Certificates

- HTML/CSS
- WEB RESPONSIVENESS
- INTRO-JAVASCRIPT

## Profile

I am a detail-oriented, self-starter frontend developer with a strong interpersonal skills. I work efficiently both on independent and collaborative projects. I used my knowledge of HTML5, CSS3, and basic of JavaScript to create a fast, responsive and interactive users experience.

## Education

**I attended a 1000+ hour coding Bootcamp to learn new languages while sharpening existing skills, where i got a deep insight to the three core language of the web. (HTML, CSS and basic of JAVASCRIPT)**

02/2022 – 07/2022 | Lagos, Nigeria

## Projects

**Travel-project**, I used html,css and basic of javascript to create a responsive landing page that works on all devices. ✍

09/2022 – 09/2022

**TodoList-project**, is a todo-list project built to improve my javascript skills ✍

09/2022 – 09/2022

**Hospital website**, Hospital landing page project built to improve my skills ✍

08/2022 – 08/2022

I created a responsive hospital landing page that works on all devices using html and css.

**easy-bank project**,

it a e- banking landing page website ✍

07/2022 – 07/2022

## Professional Experience

**Intern Frontend developer**, HealthGo

11/2022 – present | Lagos, Nigeria

- I assisted in building beautiful user interfaces for client without compromising functionality.
- I ensure that all web pages created looks good on all devices.
- I also learnt DOM manipulation.
- I also learnt how to collaborate with other Engineers.
